GFRC Shelters

Attn: Mr. Bryan Haas

Re:

Appreciation note for exceptional work done by GFRC at the Ogden Microwave Site,
Install new building and site work.

Dear Mr. Haas:

I would like to express my appreciation for the excellent work and equipment that your company provided for the Ogden Microwave Site.

The GFRC building is a favorite with our technicians and design engineers. Mike Plyes (GFRC Project Manager) also provided field support that was beyond any I have experience with other service companies.

I feel that GFRC's customer service skills are sensational. I really appreciate the consistent efforts from you and GFRC.

Edward R. Wells, P.E., MBA
